Third Quarter 2026 Social Weather Survey:

Hunger rises to 22.6% in September 2026 from 20.3% in June 2026

- **Hunger rises in Metro Manila and Balance Luzon, falls in the Visayas, and is steady in Mindanao**
- **Moderate Hunger 16.2%, Severe Hunger 6.4%**

Social Weather Stations

The national Social Weather Survey of September 21-27, 2026, found that 22.6% of Filipino families experienced involuntary hunger — being hungry and having nothing to eat — at least once in the past three months.

This is 2.3 points up from 20.3% in June 2026. It is 2.4 points above the 20.2% average of 2025, and 1.5 points above the record-high 21.1% average of 2020 during the COVID-19 pandemic *[Charts 1 and 2, Table 1]*.

Hunger rises in Metro Manila and Balance Luzon, falls in the Visayas, and is steady in Mindanao

As of September 2026, the experience of hunger became highest in Metro Manila at 27.0%, followed by Mindanao at 23.7%, Balance Luzon at 23.6%, and the Visayas at 16.0% *[Chart 3, Table 2]*.

The 2.3-point rise in hunger between June 2026 and September 2026 was due to increases in Metro Manila and Balance Luzon, even as hunger fell in the Visayas and was steady in Mindanao.

Compared to June 2026, the incidence of hunger rose by 6.3 points from 17.3% in Balance Luzon, and by 6.0 points from 21.0% in Metro Manila. However, it fell by 6.3 points from 22.3% in the Visayas, and was steady in Mindanao, at 23.7% from 24.0%.

Moderate Hunger 16.2%, Severe Hunger 6.4%

The 22.6% hunger rate in September 2026 was the sum of 16.2% who experienced *Moderate Hunger* and 6.4% who experienced *Severe Hunger*.

Moderate Hunger refers to those who experienced hunger "Only Once" or "A Few Times" in the last three months. Meanwhile, *Severe Hunger* refers to those who experienced it "Often" or "Always" in the previous three months.

Compared to June 2026, *Moderate Hunger* rose by 0.4 point from 15.8%, while *Severe Hunger* rose by 1.9 points from 4.5%.

In Metro Manila, *Moderate Hunger* rose by 6.0 points from 12.7% in June 2026 to 18.7% in September 2026, while *Severe Hunger* stayed at 8.3% *[Chart 4, Table 3]*.

In Balance Luzon, *Moderate Hunger* rose by 3.3 points from 13.0% to 16.3%, while *Severe Hunger* rose by 3.0 points from 4.3% to 7.3% *[Chart 5, Table 4]*.

However, in the Visayas, *Moderate Hunger* fell by 6.7 points from 18.7% to 12.0%, while *Severe Hunger* rose by 0.3 point from 3.7% to 4.0% *[Chart 6, Table 5]*.

In Mindanao, *Moderate Hunger* fell by 2.7 points from 20.7% to 18.0%, while *Severe Hunger* rose by 2.4 points from 3.3% to 5.7% *[Chart 7, Table 6]*.

Hunger rises among the Poor and the Food-Poor

The September 2026 survey found 55% of Filipino families rating themselves as *Mahirap* or Poor, 9% rating themselves as Borderline (by placing themselves on a line dividing Poor and Not Poor), and 36% rating themselves as *Hindi Mahirap* or Not Poor ("SOCIAL WEATHER REPORT | Self-Rated Poverty rises by 6% to 55%, while Self-Rated Food Poverty rises by 8% to 44%, between June and September 2026," 13 October 2026, sws.org.ph).

On Self-Rated Food Poverty, based on the type of food eaten by their families, the September 2026 survey found 44% of families rating themselves as Food-Poor, 9% rating themselves as Food Borderline (by placing themselves on the line dividing Food-Poor and Food-Not-Poor), and 47% rating themselves as Food-Not-Poor.

Hunger occurs at different rates among the Poor and the Non-Poor. At any given time, hunger is usually higher among the Poor. From quarter to quarter, however, the hunger rates among the Poor and the Non-Poor may change, either upward or downward. Hunger is highest among the Food-Poor.

Compared to June 2026, the rate of Total Hunger (i.e., Moderate plus Severe) among the Self-Rated Poor rose from 24.5% to 27.9% in September 2026. It was steady among the Not Poor/Borderline, at 16.1% from 16.2% *[Chart 8]*.

The rate of Total Hunger also rose among the Self-Rated Food-Poor from 29.9% to 33.2%, while it fell slightly among the Food-Not-Poor/Food Borderline from 14.7% to 14.3% *[Chart 9]*.

The rise in hunger was due both to the increase in Self-Rated Poverty and Self-Rated Food Poverty between June and September 2026, and to the fact that hunger also rose among the Poor and the Food-Poor.

Socio-demographic characteristics of respondents

Applying census weights and correctly rounded, 12% of the respondents are from Metro Manila, 46% from Balance Luzon, 19% from the Visayas, and 23% from Mindanao *[Table 7]*.

Fifty-six percent are from urban areas, and 44% are from rural areas.

Male and female respondents are alternately sampled and, thus, have a 1-to-1 ratio.

By age group, 12% are youth (18-24), 20% are intermediate youth (25-34), 21% are middle-aged (35-44), 17% are 45 to 54 years old, and 30% are 55 years old and above.

By education, 12% had at most some elementary education, 26% either finished elementary or had some high school education, 31% either finished junior high school or had some vocational education, 21% either attended some senior high school, completed senior high school or vocational, or attended some college, and 9% either graduated from college or took post-graduate studies.

Survey background

The Third Quarter 2026 Social Weather Survey was conducted from September 21 to 27, 2026, using face-to-face interviews of 1,500 adults (18 years old and above) nationwide: 600 in Balance Luzon (or Luzon outside Metro Manila), and 300 each in Metro Manila, the Visayas, and Mindanao. The sampling error margins are ±3% for national percentages, ±4% for Balance Luzon, and ±6% each for Metro Manila, the Visayas, and Mindanao.

To obtain the national estimates, the area estimates were weighted by the Philippine Statistics Authority medium-population projections for 2026. The weight projection is computed by dividing the projected population in the (area by sex by age group) by the sample size of the same (area by sex by age group).

The family's experience of Hunger has been measured 119 times since July 1998. The SWS survey questions on Hunger were directed to household heads from July 1998 to December 2024, to registered voters from January 2025 to April 11-15, 2025, and to adult respondents from April 23-28, 2025 to September 21-27, 2026. These items are non-commissioned and are included on SWS's initiative and released as a public service.

The exact phrasing of the survey questions (the source language is Filipino; English translation included) was:

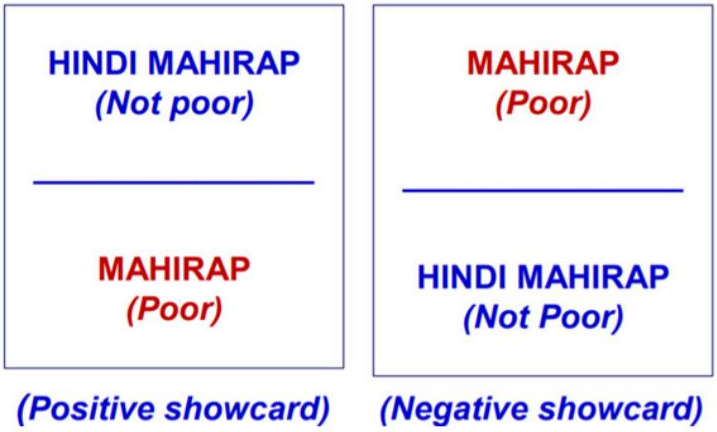

On Hunger*: "Nitong nakaraang tatlong buwan, nangyari po ba kahit minsan na ang inyong pamilya ay nakaranas ng gutom at wala kayong makain? (OO, HINDI)* [In the last three months, did it happen even once that your family experienced hunger and not have anything to eat? (YES, NO)]."

"IF EXPERIENCED HUNGER: Nangyari po ba 'yan ng MINSAN LAMANG, MGA ILANG BESES, MADALAS, o PALAGI? [Did it happen ONLY ONCE, A FEW TIMES, OFTEN, or ALWAYS?]."

Moderate Hunger refers to those who experienced hunger "Only Once" or "A Few Times" in the last three months, while *Severe Hunger* refers to those who experienced it "Often" or "Always" in the last three months.

On Self-Rated Poverty and Self-Rated Food Poverty*: "Saan po ninyo ilalagay ang inyong pamilya sa kard na ito?/Tungkol naman sa klase ng pagkain ng pamilya ninyo, saan po ninyo ilalagay ang inyong pamilya sa kard na ito?* [Where would you place your family on this card? / Based on the type of food eaten by your family, where would you place your family on this card?]."

Figure 1. Self-Rated Poverty Showcard

Half of the respondents are shown a card with the choices HINDI MAHIRAP (Not poor) and MAHIRAP (Poor), separated by a line (recorded as "Borderline"), while the other half are shown a card containing the reverse order (negative showcard), to lessen response bias.

SWS employs its own staff for questionnaire design, sampling, fieldwork, data processing, analysis, and archiving, and does not outsource any of its survey operations. This report was prepared by Leo S. Laroza.
